AQUASYNC™

CTS AquaSync™ is a real-time graphics overlay solution that synchronizes official timing and scoring data from Colorado Time Systems directly into live video streams.

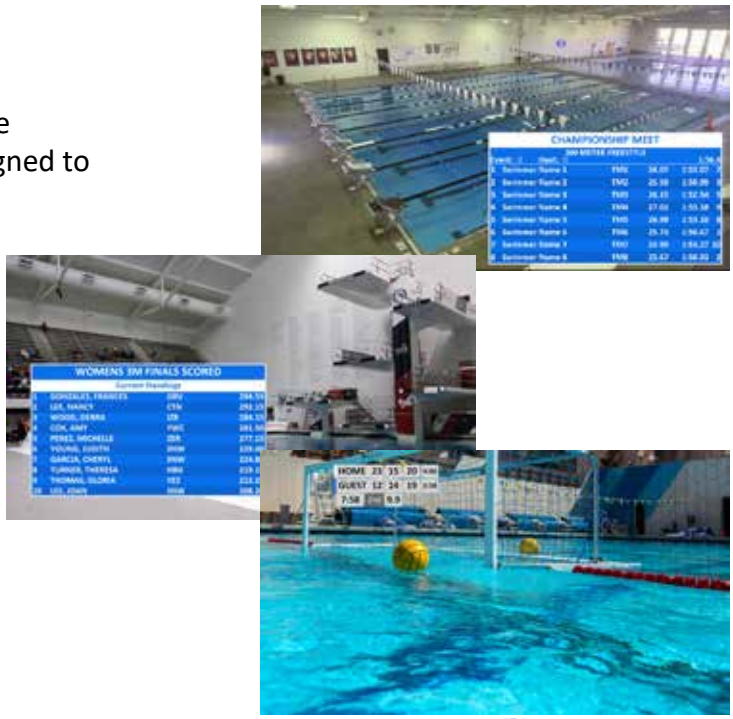

Designed specifically for aquatic sports, AquaSync™ delivers broadcast-quality graphics for swimming, diving, and water polo without manual data entry.

Key Features:

Swimming
- Grid format: Lane, Place, Name, Team, Time
- In-lane graphics: Broadcast-style visuals aligned to each lane
- Compatible with multiple camera angles

Diving
- Real-time scoring display
- Leaderboard and presentation formats

Water Polo
- “Score bug” display
- Game clock and score tracking
