

# EXTERNAL STROBE+

## Reliable Visual Start Cue for Every Lane and Every Athlete

Designed for compatibility with both the Infinity Pro and Championship Elite Start Systems, the Colorado Time Systems External Strobe (EXTSTROBE+) ensures that every athlete—regardless of their position on the pool deck or auditory ability—receives a clear, visible start signal.

Whether you're enhancing accessibility, improving visibility for timers, or ensuring fairness at high-level competitions, the External Strobe+ delivers precision and flexibility.

### Key Features:

#### Visual Start Signal:

Ideal for mounting opposite the primary start system to provide a simultaneous visual cue to athletes, timers, and officials—especially helpful in large or acoustically-challenging venues.

#### Inclusive Technology:

Promotes an inclusive competition environment by offering a reliable and equitable start signal for athletes who rely on visual cues.

#### Simple Setup and Mounting:

Mounts at least 24 inches (60 cm) above deck for optimal visibility. Automatically powered and activated through the start system once connected.
