

GEN7 DIVING

Lightning fast diving hardware & software

Key Software Features:

- Pre-meet and “on the fly” data entry and storage
- Meet management software download/upload
- Fully compatible with DiveMeets®, ieDive, OmadaTrak, and other diving meet management programs
- Supports individual and synchronized scoring
- Operable with either Gen7 diving judging terminals or manual input of flash score cards
- Modern, intuitive interface
- Optimized for touch screens
- Adheres to World Aquatics (including mixed synchro), USA Diving, NCAA, and High School (including 1m/3m springboard) rules
- Multi-faceted operator view includes: event description, diver order and names, round number, on-screen leader board, on-deck and previous divers, diver number with DD, points to score and overtake leader, award for dive, and individual judge’s scores
- Easy operator identification and adjustment for exceptional circumstances including: erroneous judgment scores, two point deductions, and failed dives
- Simple reporting for start lists and event results
