

Wireless Scoreboard Controllers

Wireless Tabletop Controller

Wireless Handheld Controller

Each Colorado scoreboard requires either the tabletop or handheld controller for operation. Both units feature an operating distance up to 1,000 ft., buttons with tactile dome feedback, and large transfective LCD screens that are easily readable in all environments from darkness to bright sunlight.

The wireless tabletop controller is recommended for: FB-I200, FB-I201, BK-I300, BK-I301, and BB-I100. The handheld controller can be added for additional flexibility. Our tabletop controller includes a built-in real time clock to keep time of day and features slide-in keyboard inserts to run multiple sports on your scoreboard with the same controller. Configurable defaults allow customizing to your league rules. This unit supports the external Run/Stop/Reset switch to allow for additional clock operators.

The wireless handheld controller is recommended for: BB-I101, CM-I400, CM-I401, and CM-I402. The tabletop controller can be added for additional flexibility.

Run-Stop-Reset

The run-stop-reset handheld unit allows the controller operator to focus on the scoring information while the run-stop-reset operator(s) stop or start the game or shot time or reset the game with the click of a button.

Up to two run-stop-reset units can plug into the tabletop controller. For basketball and water polo, if one unit is used, it can be used to control both game and shot times. If two units are used, one will control game time and the other will control shot time. For hockey, one unit controls game time. For football, one controls game time only and a second controls the play clock.

Product Specifications

Wireless Tabletop Controller

Overall dimensions (W x H x D): 12.1" x 4.1" x 9.1" (30.7cm x 10.4cm x 23.1cm)

Weight: 3.4 lbs (1.5kg)

Compliance: cETLus, FCC, CE, RoHS

Power: DC 5V, max 1.0 Amp from external power supply or PC. No internal battery; customer can supply USB compatible 3.7V 10000 mAh 38Wh external battery with input/output of 5V/1.8A.

Wireless Handheld Controller

Overall dimensions (W x H x D): 3" x 1.4" x 4.5" (7.6cm x 3.5cm x 11.7cm)

Weight: .43 lbs (.2kg)

Compliance: FCC, CE, RoHS

Power: 2 x AA batteries; alkaline or rechargeable

Run-Stop-Reset

Overall dimensions (W x H x D): 1.9" x 4.5" x .38" (4.7cm x 11.4cm x 1.0cm)

Weight: 5.6 oz (158.8g)
