

# Train Right Package

The Train Right package from Colorado Time Systems allows athletes to achieve peak performance. This unique package of training tools provides immediate visual feedback to both the coach and athlete, while offering the sound and feel of competition.

The pace clock displays accurate feedback to coaches and athletes regarding relay exchange, start reaction, turn speed, and breakout times.

The individual components of the system can also be utilized during competition and other training.

This standalone, portable one-lane training system includes:

- Pace Clock Pro
- Pushbutton
- 30-inch “mini” touchpad or 76cm x 90cm touchpad
- Relay judging platform with speedlights
- Infinity\* or Championship Start System

*\*Speedlights will not activate with the Infinity Start System.*

**TR-SYS-1/F\***: Pace Clock Pro, pushbutton, 30-inch “mini” touchpad, relay judging platform with speedlights, and Infinity Start System

**TR-SYS-2/F\***: Pace Clock Pro, pushbutton, 30-inch “mini” touchpad, relay judging platform with speedlights, and Championship Start System

*\*F versions are 220V, and include the 76 x 90 cm touchpad*
