

# GEN7 SERIAL TIMER CONNECT HUB

Gen7 connect hubs feature an ultra-durable precision titanium connection pins that resist corrosion and are electrically passive when not in use.

## Key Features:

- Uniquely keyed and color coded to ensure that each component is in the proper place
- Titanium pins resist corrosion and significantly reduce the amount of time spent on maintenance
- Wet pluggable connector system purges water from connector surface to insure a watertight positive connection
- Intelligent self-diagnostic capabilities to detect anomalies with connectors
- Intelligent connection detection of presence or absence of connection
- Fits into a 4" x 4" x 6" PVC junction box
- Conduit interconnects between timing system boxes (deckplates and wallplates) are 1.5" PVC
