

Integrated Wireless Mini Scoreboard

Shown with optional external horn kit

The Colorado Integrated Wireless Mini Scoreboard is a great water polo scoreboard solution, or any sport needing to display period/shot, game time, and home/guest scores.

Durability

Each scoreboard is enclosed in a rugged powder-coated aluminum enclosure, and all digits and circuit boards are conformal coated to protect against corrosion. The high gain flush mount patch antenna is mounted internally and protected by the Lexan cover to prevent breakage by errant balls and/or weather.

Integrated 2.4GHz wireless

Integrated 2.4GHz wireless technology offers a well-designed and highly effective combination of channels, network IDs and modules to give you customizable options without the risk of wireless interference, allowing multiple games to operate in close range.

Features

- High visibility LED digits
- Lightweight and portable
- Includes handle for easy portability
- Available with or without batteries
- Indoor or outdoor use
- Viewing distance of at least 50m
- Displays data received from wireless controller
- Flexible mounting options

Options

- External horn kit
- Wallmount kit
- Wheeled scoreboard caddy
- Short legs
- 3' pipe stand

Add on a pair of Deck Clocks to display shot and game time. Each deck clock features an integrated horn, which produces separate shot and game tones. The deck clock can be used as a pace/time of day clock when not being used for competition.

The system is designed for completely wireless operation. Water Polo customers can also run with the System 6 and wireless scoreboard adapter (WA-2), or wired with on-deck cabling.

Product Specifications

Controllers

Basic information can be controlled with the wireless handheld controller (WHC-1) or the wireless tabletop controller (WTTC-1). The tabletop controller is required to adjust the LED intensity up or down, and is recommended for indoor users, or users that switch between indoor and outdoor use.

Each controller features an operating distance up to 1,000 ft, buttons with tactile dome feedback, and large transfective LCD screens that are easily readable in all environments from darkness to bright sunlight.

The scoreboard can also be used with the System 6 timing console and a wireless scoreboard adapter, or on-deck cabling.

Specifications:

Part#: WP-1700 (includes batteries)
Overall dimensions (H x W x D):
13.75" x 48" x 4" (34.9cm x 121.9cm x 10.2cm)
Weight: 29 lbs (13.2 kg)
Digit size: 5" (12.7cm)
Power: 100-240V, 2A 50/60Hz

Part# WP-1701 (no batteries)
Overall dimensions (H x W x D):
13.75" x 48" x 4" (34.9cm x 121.9cm x 10.2cm)
Weight: 15 lbs (6.8 kg)
Digit size: 5" (12.7cm)
Power: 100-240V, 2A 50/60Hz
